

MAUNG MAUNG HTOO

Full-stack Web Developer

htoo31772@gmail.com | 09-770 200 436 | <https://github.com/htoo31772-os>

SUMMARY

"Enthusiastic Junior Full-stack Developer with hands-on experience in building responsive web applications using React.js and Laravel. Passionate about writing clean, maintainable code, designing database structures, and creating seamless user experiences. Eager to contribute to a dynamic development team."

EDUCATION & TRAINING

Web Development Training

- MM Coder Specialized in modern React.js, component-based architecture, and state management.

Core IT Fundamentals

- The Navigator Focused on computer systems, networking basics, algorithms, and development logic.

FEATURED PROJECTS

Medical Appointment System (careBooking)

- Built a full-stack doctor appointment scheduling platform using React.js and Laravel.
- Designed backend database structures in MySQL and integrated RESTful APIs.
- Managed deployment and troubleshooting on the Render cloud hosting platform.

E-commerce Platform (Electronics)

- Developed a fully functional shopping platform with product categories and cart management.
- Created a responsive UI/UX interface using Bootstrap and optimized React hooks like useMemo.
- Implemented secure user flows, backend product inventories, and dynamic routing.

Dynamic Multi-Category Blog Platform

- Built a full-stack blogging system covering lifestyle, medical, technology, and travel categories using React.js and Laravel.
- Implemented interactive user features including real-time view counters, likes, and a dynamic comment system.
- Designed relational database schemas in MySQL to manage complex data relationships between users, posts, categories, and interactions.
- Utilized React hooks for efficient state management and optimized front-end data fetching from Laravel RESTful APIs.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Vite
- **Backend:** PHP, Laravel (MVC Architecture)
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, Render (Deployment)
